Accomplished not by,--

conventionalist, Classicist.

nor by

enthusiast, Romanticist

but by men of insight, and grip upon reality, whom new their world, and worked hard to understand its nature

We are engaged in a line of human development that has not yet been achieved. It is in essence that freedom and fellowship are principles to be trusted in the field of religion.

Plum line) Special creation or evolution.

In 1860 at a meeting of the British Association Bishop Wilberforce assailed Huxley as champion of Darwinian views, in this fashion,--"Facing Huxley with a smiling insolence, he begged to know whether it was through his grandfather or his grandmother that he claimed his descent from the monkey.

Huxley turned to his neighbor and said, "The lord has delivered him into my hands." Then he stood before us and spoke these tremendous words. "He was not ashamed to have a monkey for an ancestor, but he would be ashamed to be connected with a man who used great ~~gift~~ gifts to obscure the truth."

That controversy which raged 60 years ago among the scholars, is just ~~now~~ now developing into a great popular battle.

Two great Dangers.

Being too conventional. Playing fast and loose with words and institutions. ~~Having~~ Lack of courage.

Becoming enthusiasts. Too ardent in emphasis on some particular aspect or phase of life, some particular doctrine or custom, Thus creating an illusion.

The power of understanding, vision of reality!

Insight in contemporary life.

Be still and know that I am God.

We begin with the observation of fact
We interpret facts. God is in reality
in the common place.
