Proverbs 4:1-9

Some of {???) p. 185

Proverbs 4:7 "Wisdom is the principle thing; therefore get wisdom: and with all thy getting get understanding."

What is meaning of wisdom?
Knowledge. Understanding.

Wisdom seems to have a meaning such as is suggested by insight, understanding
Knowledge = information
Wisdom = Digested and corrected knowledge. So held and believed as to effect the life.

The mind abhors a vacuum.

The Protestant was delving into a new world. A great and exciting thing it was for him to read the Bible. It meant not only truth, but a broader + different world. Hence the Protestant + his Bible.

But great as was the extension of the horizon offered up by the translation of [the] Bible + the new learning and printing press. .

Even greater is the world offered up by wonderful science and thought.

Both as to time, space + {???}.

People searching. They are {???} into this new world.
